"With the snow and the camp road being covered, we remind all groups to take it slow on the camp road. We do NOT have the ability to assist if cars get stuck or slide off of the road. We routinely plow when needed. Having 4 wheel drive is always helpful when coming to camp during the winter months!" - Bear Creek Camp

If you would like to join us but don't feel comfortable driving on their road, please reach out to Mrs. Larissa Soroka. I will do my best to accomidate.
