Introduction

Bear Creek Community Charter School will be accepting proposals from qualified firms for the procurement and distribution of food and non-food supplies for use in school meal programs. All products are required to meet the demands of student preferences and meet or exceed the nutrition requirements of the United States Department of Agriculture (USDA) Meal Pattern Requirements and Nutrition Standards. The products will be delivered to Bear Creek Community Charter School, 30 Charter School Way, Bear Creek Township, at minimum once per week while school is in session.

Specifications as written, meet all entity's admissible specified requirements. Whenever an article or material is defined by describing a proprietary product or by using the name of a manufacturer or brand name, the term "or approved equal" if not inserted shall be implied. The Charter School reserves the right to make final decisions on comparable items as approved equals. Items delivered must be exact brand and model as reviewed and awarded, unless otherwise clearly disclosed on the proposal submission.

Background

Bear Creek Community Charter School has an enrollment of approximately 625 students, kindergarten through eighth grade and approximately 80 staff. The average annual meal participation is approximately 57,328 breakfasts, 71,016 lunches, along with miscellaneous snacks. The Charter School annual anticipated expenditure for the services requested is \$205,000.00.

Project Objective

The Request For Proposal (RFP) is for the purpose of entering into an agreement with a food service vendor who can supply all the products outlines within the RFP. It is the intent of the Charter School that the Vendor would be the primary vendor of food and food service-related request supplies for school food and nutrition operations for the period specified. The Vendor must reciprocally agree to provide a comprehensive product line to meet the total requirements of the Charter School and minimize the occurrences when the Charter School may have to seek other interim product sources. The determination shall be based on the Charter School's evaluation of submitted proposals.

The goal is to craft a purchasing agreement to address the Charter School's need for food and non-food supplies. The Charter School is seeking a partner with experience, industry knowledge, financial stability, whose technology will be kept up-to-date and who will sustain and provide effective customer service.

In addition to the pricing included in this RFP, the Charter School and awarded Vendor will utilize mutually agreed upon price adjustments based upon industry standards and best business practices thereby allowing both parties to control costs.

The awarded Vendor will be responsible for:

- Offering services described herein at a fixed price per case for delivered product
- Competitively bidding products on behalf of the Charter School using the Charter School's specifications and distributions/delivery of those products
- Delivering weekly to a single location/site within specified time frame
- Delivering supplies and emergency products as needed

The Charter School's intent is to provide the Vendor accurate, timely forecasting and fulfill purchase of forecasted volumes. It is expected that the awarded Vendor will work in good faith with the Charter School in all efforts related to cost savings. It is recognized that, in the food supply chain process, economics of scale are not the only cost opportunities that may arise. The Charter School is interested in partnering with a Vendor who may introduce other cost savings concepts that will be to the benefit of all parties.

Food-safety and availability will be paramount. The selected Vendor will be expected to warrant food-safety and product-availability, assuming all risk of ensuring those two key aspects of food-provision. The Charter School expectations are that the Vendor selected shall already have in place systems to maintain a high-quality program for warehousing and distribution. The Vendor must assure that: first-in, first-out inventory principles are used; an HACCP (Hazard Analysis Critical Control Point) system is in place; a Cold Chain Management System is in place; product shelf life is monitored, products are free of damage; correct products and quantities are "picked" and delivered on the correct day and time; the correct price is charged, product discrepancies and complaints are resolved and corrective action is initiated; customer satisfaction is monitored; vendor/FDA-initiated food recalls are promptly reported, and salvaged products are not delivered.

Scope of Services

The awarded Vendor will charge the Charter School a fixed price. This fee to the Charter School will include all costs that are associated with the contract. The awarded Vendor will use Charter School product specifications to solicit competitive bids from manufacturers for the purchase of food and non-food items as required by the Charter Schools. When these products have been awarded and approved by the Charter School, the Vendor will order, receive, and store the products and distribute these products as directed by the Charter School.

It is anticipated that the primary vendor will receive no less than 90% of total food service program purchases. The Charter School agrees to use the designated contract vendor as an exclusive source for the various items and services as listed, as well as for comparable substitutes and additional items. The only anticipated exceptions might be in time of emergency or for products that the vendor is unable or unwilling to obtain. The designated vendor reciprocally agrees to provide total requirements as listed herein, thereby minimizing occurrences when the Charter School may have to seek other interim product sources. Failure to deliver 100% of the items on this list, within 48 hours, may be considered default. In case of default by the successful Submitter, the Charter School after due notice (oral or written) may procure the necessary supplies from other sources. Multiple instances of default may result in cancellation of the contract and removal from future RFP opportunities.

Any award made as a result of this solicitation, may not be transferred, assigned, subcontracted, mortgaged, pledged, or otherwise disposed of or encumbered in any way by the vendor

The Charter School will work with the awarded Vendor in order to acquire the best product at the best cost. The Vendor will lend their experience and expertise to purchase the product requested. Purchases shall be made in the most cost effective manner. The vendor must award their bid to the lowest cost per equal increment of products that meets or exceeds the specifications, terms and conditions. Failure to offer the lowest best price on all products may result in termination of the contract.

In accordance with Federal requirements 210.21 Procurement, the school food authority (LPSD) must include the following provisions in all cost reimbursable contracts, including contracts with cost reimbursable provisions, and in solicitation documents prepared to obtain offers for such contracts:

1. Allowable costs will be paid from the nonprofit school food service account to the vendor net of all discounts, rebates and other applicable credits accruing to or received by the vendor or any assignee under the contract, to the extent those credits are allocable to the allowable portion of the costs billed to the school food authority;
2. The vendor's determination of its allowable costs must be made in compliance with the applicable Departmental and Program regulations and Office of Management and Budget cost circulars;
3. The vendor must identify the amount of each discount, rebate and other applicable credit on bills and invoices presented to the school food authority for payment and individually identify the amount as a discount, rebate, or in the case of other applicable credits, the nature of the credit. If approved by the State agency, the school food authority may permit the vendor to report this information on a less frequent basis than monthly, but no less frequently than annually;
4. The vendor must identify the method by which it will report discounts, rebates and other applicable credits allocable to the contract that are not reported prior to conclusion of the contract; and
5. The vendor must maintain documentation of costs and discounts, rebates and other applicable credits, and must furnish such documentation upon request to the school food authority, the State agency, or the Department.

Prohibited expenditure. No expenditure may be made from the nonprofit school food service account for any cost resulting from a cost reimbursable contract that fails to include the requirements of this section, nor may any expenditure be made from the nonprofit school food service account that permits or results in the vendor receiving payments in excess of the vendor's actual, net allowable costs.

The Vendor shall inform the Charter School immediately of any market changes concerning supply and demand that may affect pricing and/or distribution and advise the Charter School as such in order to make the most economical decisions for the Charter School.

While procuring and researching products, the Vendor is required to respond promptly to problems with products, delivery, or transaction documentation, provide timely and accurate cost and usage reports, and perform all contractual requirements in a manner consistent with the best interests of the Charter School.

Bidding requires firm annual pricing. Shorter terms must be indicated on the bid spreadsheet and will be considered in final Scoring.

Products

The Charter School requires that the Vendor have an effective quality/control assurance program in place with well established procedures that are followed to ensure a quality food and supply program. The Charter School reserves the right to determine product selections for the Charter School's program. As the Charter School's product selection requirements change, it may be necessary for the Charter School to require a change in product selections or packaging.

The Charter School's expectation is that all food and supplies be readily available. The Vendor shall stock specified and preapproved products after contract award. Before the Vendor can make stock changes to the approved list, a review of those changes must be presented to the Charter School. All products shall be pre-approved by the Charter School after contract award and samples may be required to make that determination. The Charter School also reserves the right to order any other food and food-related product from the Vendor that is not included in the stock and pre-approved product listing.

The Vendor will be responsible to avoid overstocking and use Charter School's projections and forecasts as an ordering guide. The Charter School shall not be limited to the estimated usage figures. The quantities for each item are estimates based on current usage figures for a similar time period. It is understood and agreed that the Charter School reserves the right to increase or decrease quantities, or modify conditions and/or specifications with notice.

Bid pricing on new items may be requested at any time throughout the contract period.

Upon request, the Vendor shall make available to the Charter School expanded product information to include, but not limited to, manufacturer name, manufacturer product code number, general description of the product, portion or serving size, number of portions per case, whether delivered frozen, refrigerated, or shelf stable, storage temperature, shelf life of the product, preparation and cooking information, serving suggestions, nutritional information, whole grain formulation information, ingredients as per the product label, including any allergy designations, (e.g., peanuts, tree nuts, fish, shellfish, eggs, milk, wheat, and soy); portion size in grams, calories in Kcal per portion, total fat, trans fat, saturated fat, sodium, fiber and meal component equivalents (for child nutrition items), percentage of whole grains or grain components, protein, and carbohydrate content in grams per portion, product valuation statements, product formulation statements, product fact sheets and a manufacturer contact telephone number and email address for additional information of needed.

All products shall conform to the minimum requirements of Federal and State regulations. Those requirements shall include but not be limited to weights, measures, full containers, drained weights, and contamination.

All products shall conform to standard guarantee requirements with respect to HACCP safety standards, and the vendor by his signature, agrees to hold the buyer harmless in the event of product failures. If a product recall is instituted on an item that has been furnished and delivered to LPS, the vendor will immediately notify both verbally and in writing with all pertinent information of recall. Vendor will be responsible for all cost associated with replacement product, shipping charges, and/or product credit. The Charter School will make final decision whether product needs to be credited or replaced.

All products should arrive in an unopened original container.

Perishable products (including, but not limited to yogurt and juice) shall have a minimum of a two week shelf life from date of delivery.

Ordering

It is anticipated that orders will be placed weekly while school is in session. The Vendor shall make available to the Charter School a secure web-based system, at no charge to the Charter School, to assist with researching products, verifying purchases, and tracking orders.

The Vendor shall be able to provide, upon request, a full range of reports reflecting the Charter School's account. The reports need to be provided electronically via e-mail in Microsoft Excel format, or in text or comma-delimited format that can easily be imported into Excel.

Vendor must submit a detailed bid document of all proposed items with full item description, pack size, and stock numbers with proposal.

Usage reports, which report item sales and totals for the Charter School, shall be supplied upon request.

A detailed invoice shall be provided with each delivery, clearly identifying product description, quantity, unit price, and extended price for all products purchased and delivered. Invoices must also detail any credits due to the Charter School for rebates, discounts, returned items, etc.

Item Shortages and/or Substitutions

The Vendor shall accommodate all orders. To assure provision of service excellence to our customers, the Vendor shall provide all products as selected by the Charter School at a fill rate of 90%. Vendor must have items stocked and available to fill orders beginning August 22 for the school year. Manufacturer's brand and product code number awarded must be the brand and product code number delivered unless otherwise disclosed on the Vendor's submission.

Approved substitutions will be calculated as shortages. The Charter School shall work closely with the Vendor by providing menus, forecasted usage, and/or any other information pertaining to its ongoing and changing needs to help keep shortages to a minimum.

The Charter School must be notified prior to delivery of any shortages that will occur either through the on-line order system confirmation or other form of communication. The Vendor will have a designated contact for weekly monitoring of substitutions and/or shortages. Substitutions may be made only upon prior approval of the Charter School's Department of Nutrition Services. The decision on substitutions will be made by the Charter School, based on cost, intended use for the menu, and customer acceptance.

Substituted products must be equal to or superior to the item bid and shipped at no more than the original item cost. If the substituted item cost is less than the original item cost, the lower cost shall prevail. Excessive shortages may be cause for termination of the Contract with the Vendor, and may result in default.

Deliveries must be made in dual or tri-compartment refrigerated trucks to adequately protect frozen, dry, chilled, and special care products in accordance with packer's recommendations. The expectation is that the Vendor guarantees delivery on the days designated. If the Vendor fails to deliver an order, the Charter School will be notified immediately in order to make corrective actions, such as making a special delivery to the Charter School, arranging for delivery by an alternate vendor, or by making other satisfactory arrangements. The Vendor shall be responsible for any cost difference between the price of the originally ordered products and those of an alternate vendor, should the Vendor be unable to resolve any delivery issues internally.
