Public Involvement, Notification, and Assessment

We have LEA official(s)/designee(s) in charge of wellness policy compliance.

Name(s)/Title(s):

We complete an assessment of the local school wellness policy at least every three years ("triennial assessment").

Triennial assessment results are made available to the public in an easily accessible manner.

Website address and/or description of how to access copy:

At least every three years we use the results of the triennial assessment to update or modify the wellness policy as needed.

The LEA informs and updates the public about the contents, updates, and implementation of the wellness policy at least annually and the policy is accessible to the public.

Website address for policy and/or description of how to access copy:

We retain records as required by federal regulations including:

- ☐ The written school wellness policy,
- ☐ Documentation of making the wellness policy publicly available,
- ☐ Documentation of outreach efforts inviting stakeholders to participate in the wellness committee / wellness policy process, and
- ☐ Copy of triennial assessment and documentation of reporting results to public.

The LEA utilizes a wellness committee that includes these community stakeholders in the development, implementation, review, and update of the wellness policy:

- ☐ Administrators ☐ Food service staff ☐ School health professionals
- ☐ Parents ☐ School board members ☐ PE teachers ☐ Students
- ☐ Public

Other stakeholders (describe):

Notes on public involvement, notification, and assessment:

Nutrition Education*

Nutrition education is provided within PDE's sequential, comprehensive health education standards.

We teach, model, encourage, and support healthy eating through nutrition education.

Wellness Policy Assessment Tool and Report Template

We provide all students with knowledge and skills for healthy lives via nutrition education.

We offer age-appropriate nutrition education and activities to students in:

☐ Elementary School ☐ Middle School ☐ High School

Our nutrition education curriculum teaches behavior-focused skills such as menu-planning, reading nutrition labels, and media awareness.

School food service and nutrition education classes work together to create a learning laboratory.

In addition to meeting academic standards for nutrition education, we integrate nutrition education into a variety of subjects (e.g., math, science, language arts).

We reinforce lifelong lifestyle balance by linking nutrition and physical activity.

Staff providing nutrition education receive standards-based training and professional development.

We engage and involve families and the community in nutrition education efforts.

Other goal (describe):

Notes on goals for nutrition education:

Nutrition Promotion*

We use evidence-based techniques and nutrition messages in school and encourage participation in school meal programs.

We participate in Farm to School activities such as having a school garden, taste-testing local products, incorporating local foods into school meals, and educating students in the classroom and on field trips about local agriculture.

We cooperate with community agencies and organizations to provide opportunities for student projects related to nutrition.

We implement behavioral economics techniques in the cafeteria to encourage consumption of whole grains, fruits, and vegetables and to decrease plate waste.

We display and disseminate consistent nutrition messages in schools, classrooms, cafeterias, homes, community, and media.

Our staff model healthy eating in front of students and avoid using unhealthy foods in classroom lesson plans.

We offer health and nutrition resources to parents to help them provide healthy meals for their children.

Other goal (describe):

Notes on goals for nutrition promotion:

Physical Activity*

We provide a variety of developmentally appropriate opportunities for physical activity during the school day for all students.

We contribute to the effort to provide students daily opportunities to accumulate at least sixty minutes of age-appropriate physical activity daily as recommended by the CDC.

In addition to planned physical education, we offer activities such as indoor and outdoor recess, before and after school programs, intramurals, interscholastic athletics, and clubs to meet the needs and interests of our students.

We maintain a physical and social environment that encourages safe and enjoyable activity for all students.

We discourage extended periods of inactivity (two hours or more) for students.

We provide physical activity breaks in the classroom.

We offer before and/or after-school programs that include physical activity for participating children.

We partner with parents/guardians and community members and organizations (e.g., YMCA, Boys & Girls Clubs, local parks, hospitals, etc.) to offer programs supporting lifelong physical activity.

We do not use physical activity as a punishment (e.g., running laps).

We do not withhold physical activity as a punishment (e.g., taking away recess).

We encourage walking and biking to school.

We encourage students and families to use our physical activity facilities, such as playgrounds and ball fields, outside of school hours in accordance with school rules.

Other goal (describe):

Notes on goals for physical activity:

Physical Education (PE)

We implement a PE program consistent with state academic standards.

All students participate in PE.

PE instruction promotes skills and knowledge necessary for lifelong physical activity.

PE classes provide the means for students to learn, practice, and be assessed on developmentally appropriate skills.

Our curriculum promotes both team and individual activities.

We offer a comprehensive PE course of study with planned instruction time for students to meet standards at the proficient level.

We use a local assessment system to track student progress on state standards.

Students are moderately to vigorously active as much time as possible during PE class. Accommodations are made in class for documented medical conditions and disabilities.

We provide safe and adequate equipment, facilities, and resources for PE class.

Certified health and PE teachers teach our classes.

We provide professional development for PE staff.

PE classes have a teacher-student ratio similar to other courses for safe and effective instruction.

We do not use or withhold physical activity as a form of punishment in PE class.

Other goal (describe):

Other School-Based Wellness Activities*

Free drinking water is available and accessible to students during meal periods and throughout the school day.

School nutrition staff meet local hiring criteria and in compliance with federal regulations.

We provide continuing education to school nutrition staff as required by federal regulations.

We provide adequate space for eating and serving school meals.

We provide a safe and clean meal environment for students.

We offer students enough time to eat (10 minutes sit down time for breakfast; 20 minutes sit down time for lunch) and schedule meal periods at appropriate hours.

We implement alternate school breakfast service models to increase participation, such as "grab & go," breakfast served in the classroom, and breakfast after first period.

Students have access to hand washing or sanitizing before meals.

Only authorized staff have access to the food service operation.

We provide the nutrition content of school meals to the school community.

We include students/parents in menu selections through taste-testing and surveys.

We utilize outside funding and programs to enhance school wellness.

We train all staff on the components of the school wellness policy.

School based activities are planned with wellness policy goals in mind.

Fundraising projects submitted for approval are supportive of healthy eating and student wellness.

We encourage administrators, teachers, school nutrition professionals, students, parents/guardians, and community members to serve as positive role models through district programs, communications, and outreach.

We communicate information to parents/guardians to support their efforts to provide a healthy diet and daily physical activity for their children.

Indoor air quality is in accordance with our healthy learning environment program and applicable laws and regulations.

Other goal (describe):

Notes on goals for other school-based activities:

Nutrition Guidelines for All Foods and Beverages at School

We consider promoting student health and reducing obesity when offering foods and beverages to students at school.

Foods and beverages provided through the National School Lunch and School Breakfast Programs comply with federal meal standards.

We offer healthy food and beverage options at school-sponsored events, such as dances and sporting events.

Foods and beverages outside of the school meal, which are sold to students at school during the school day, meet or exceed the established federal competitive food standards (USDA Smart Snacks in School). Venues include vending, school stores, non-exempt fundraisers, and a la carte items.

Fully in Place Partially in Place Not in Place

We limit the number of food fundraisers at school and have procedures in place for requesting a fundraiser exemption (i.e., selling foods that do not meet Smart Snacks) in accordance with limits set by PDE.

We have local standards in our written policy for foods and beverages offered for free to students at school, including food rewards, items offered at classroom parties and celebrations, and foods/beverages provided to the class as shared classroom snacks.

We provide a list of nonfood ideas and healthy food/beverage alternatives to staff and parents/guardians.

Only foods and beverages that meet or exceed federal nutrition standards (USDA Smart Snacks in School) are permitted to be marketed or promoted to students during the school day. Examples: posters, vending machines, menu boards, cups for beverage dispensing, coolers, trash cans.

Notes on nutrition guidelines for foods and beverages at school:

** At least one goal for these categories must be included in the written policy per federal regulations.*

Report on the progress made in attaining the goals of the wellness policy (REQUIRED):

Bear Creek Community Charter School Wellness Policy Assessment & Report

Attachment 1

Wellness Committee

The School's Wellness Policy was disseminated to the Wellness Committee members on January 27, 2020 and the Wellness Committee convened on February 6, 2020 to review the existing Wellness Policy. The Committee convened again via Zoom! on November 19, 2020 to follow-up on prior discussion points and to complete the Triennial Assessment Report required for compliance purposes.

Jim Smith – Chief Executive Officer

Jerry Weihbrecht – Food Service Director

Tina Vojtko – School Nurse

Tony Prudente – Physical Education Teacher

Jen Smith – Parent

Stacey Scullion, LDN, RD – Board Member (Clinical Dietician)

Michelle Sminkey – General Public/Community

Abby Miller – Student

Nutrition Education

An opportunity exists to integrate school nutrition into the School's environmental education program, including the herb garden that exists as part of Anita's Garden on the Bear Creek Community Charter School campus. Students can taste-test herb such as basil, dill, thyme and mint and can also learn how these herbs factor into the creation of healthy meals. * **Goal.**

Physical Activity

During normal school operations, ensuring students receive an appropriate amount of time for physical activity is typical; however, during pandemic conditions when students are unable to transition as usual due to public health concerns, this is a concern. As a result, the School will incorporate a second recess-period into its School Reopening Plan for younger students. Teachers will incorporate activities into their weekly academic lessons that allow classes of students to engage in learning outdoors. * **Goal.**

Another concern raised is the temporary restrictions that will be placed on the outdoor play area located immediately adjacent to the School, which will be impacted by a planned construction project beginning in the 2021-2022 school year. Additional outdoor space needs to be considered during construction that will provide adequate opportunities for students to engage in physical activity outdoors. * **Goal.**

Bear Creek Community Charter School does not encourage walking and biking to school as it is unsafe to do so. Bear Creek Community Charter School's 311-acre campus is located in a rural area on a mountain peak, and is only accessible from a major two-lane thoroughfare with no sidewalks.

Other School-Based Wellness Activities

Considerations should be given to adding space to the existing food preparation area as part of the planned construction project, to allow for a second serving line/serving counter for student meals. * **Goal.**

Nutrition information for school meals is available to students and parents upon request. The School should consider adding nutrition information for commonly-served meals on its web site for easy accessibility. * **Goal.**

Additional funding for school wellness programming is provided through Bear Creek Community Charter School's general operating budget as well as from outside sources such as the Bear Creek Foundation for specific programming.

Additional resources can be made available to parents relating to healthy eating and physical activity using the school's web site, social media, and e-mail newsletters. * **Goal.**

In addition to regulating school fundraisers, which are limited to two extra-curricular activities each year, School administrators should continue to evaluate fundraising activities of the school's PTO to ensure there is a balance as it relates to fundraising activities involving non-healthy foods.
